LEASES NEAR WHITTEN

VALUABLE OIL PROPERTY INVOLVED IN DECISION AP-PEALS COURT

The court of civil appeals of the third Texas judicial district, sitting at Austin, in passing on the case of Humble Oil & Refining Company vs. E. R. Davis et al., affirm ed the decision of the district court here in reformation of an oil and lease covering twenty acres-o land lying in the southeast corner of the Hill tract in the oil field The case was passed on Wednes-

Davis and Bates, both of Corsicana, held a lease on the twent; acres at the time the Humble Company purchased the entire 130 acre tract for a tank farm site. The Humble bought the tract in July, 1923, and proceeded to erec tank farm. However, no tank: were erected on the twenty acres in question, but four good producing off wells have been developed on it and consequently is ver-valuable property. In buying the property the deed conveyed the fee and included one-half the royalty

The twenty acres lease seems t have been made in 1921 from Hil to Davis and Bates and the rental amounting to \$1.50 an acre, har been paid for the year 1322.

When the property was convey ed to the Humble Company in July, 1923, the lease was outstand A tender of \$30 was made renewal of the lease late in Sep tember, but was refused by th Humble Company, which set up th record disclosed the rental payin time to be September 1, and it was urged that the lease had lapsed and had become null, void and of

Lessees filed an action in district court setting up mutual mistake in the renewal date of the lease, and the lease was reformed accordingly. The effect of the decision of the lower court was that the tender made by lessees was made in the lifetime of the least and that no lapse had been made This decision has been affirmed. During the time of the litigation the Humble Company developed the property, drilling four produc

ing wells.

The action was brought by Lawrence Treadwell in behalf of Davis and Bates. H. B. Daviss is representing the Humble Company.

An appeal will be taken. Mr An appeal will be taken. Daviss stated here Thursday.

STATE NATIONAL EXPECTS MOVE TO NEW HOME APRIL 1

President Ike Cerf of the State National Bank gave out the state-ment Thursday that with the progress now being made on the fin-ishing up of their new building that his bank hoped to move into their new home around April 1st. Owing to delayed shipments of some of the material for the furniture of the bank building the State National Bank has been late in moving into their beautiful new quarters, but it will not be long now before everything will be completed and the bank will be able to

operate in the new building.
Although definite plans have not yet been announced as to the opening of the bank in their new home it is understood that there is in the making an elaborate program for the occasion which the friends of the bank and public in general is looking forward to.

JOE NAGY IS PEER OF HOG RAISERS IN FRIO COUNTY AREA

FEEDING AND SHIPPING HOGS ONE OF HIS MOST PROFIT-ABLE VENTURES

By Associated Press.
Dilley, Texas, March 2.—Joe Nagy, regarded as the peer of nog or farmers hereabout regard as caster,

quite an agricultural spree, Those who have heald the story from sources close to Mr. Nagy point out that he has 4,300 acres of land, most of which is devoted to livestock raising. But feeding and shipping hogs, he regards as one of his most profitable enter-

He has 30 Poland China sows which farrow twice a year. An average of six pigs to a litter produces 360 pigs a year. In feeding for market he selects those which weigh about 100 pounds and brings them to full feed as rapidly possible. When they add pounds to their weight they are shipped either to San Antonio or to Fort Worth Usually he has seven car loads of hogs to ship a year, and his average profits are figured at \$500 a car or \$3,500 a

How he feeds them is a short story in porcine prose. In addi-tion to their grain allowance, they get a mixture of one-third steam-ed cotton seed and two-thirds of rice bran, and are fed all they will eat twice a day.

Unsatisfactory conditions in the cattle industry have caused Mr. Nagy to temporally abandon that field for hog raising. Usually, however, he feeds several car however, he feeds several car loads of cattle for market each year. Hogs just now attract him as a profitable field. But this is not the full measure of his activi-ties. He has 60 head of sheep and several milch cows. About 1,000 acres of his land is in cultivation: the remainder is range land and pasture. His principal crops are winter oats, for grazing, red top cane, Kaffir and milo. Some corn also is grown but he does not regard it as a dependable crop.

He has nine pit silos, each with a capacity of 75 tons. When he is feeding cattle he regards them as nearly the keystone of the arch of cattle feeding business.

These facts are cited by Mr. Nagy's neighbors as evidence that he is a successful farmer who is not without versality.

Stop That Itching

No matter now nopeless your case may seem, nor how long you have suffered from Eczema, Ring-worm, Cracked Hands, Itch, Polson Cak, Old Sores and Sores on children, or any other skin disease, we will sell you a jar of Blue Star Remedy, on a guarantee. This is different from the ordinary skin treatment, it penetrates the skin going direct to the seat of trouble and immediately relieves that terrible itching. Will not stain clothing and has a pleasant odor . For Sale by Coulson Drug Co.

like other girls? Why do I have to have these ugly pimples, blotches and blackheads?

"If I could only find something that would clear up my skin and give me back my soft, rosy complexion, I know I would be the happies girl in the world! What can I do?"

Is that you talking? If it is, you don't have to worry a minute! Just build up the rich, red blood in your body. Then your skin will be as clear and soft as anybody's.

That's what S. S. S. has been doing for generations—helping Nature build rich, red blood! You can build red-blood-cells so fast that the impurities that cause breaking out on the skin hardly get into the system before the pure blood annihilates them—kills them right out—stops them from breaking out

through the skin.

And then this rich, red, p.u. blood feeds and nourishes the tie-sues of the skin and keeps it look

ing healthy.

That's all there is to it. Healthy, vigorous red blood such as S. S. S. helps Nature build, makes you healthy all over. It heautifies your skin drives away pimples, black-heads, blotches, rash, hells, and eczyma-

boils and eczema— gives you back your appetite— builds firm, plump flesh and fills

you full of new life and energy.

All drug stores sell S. S. S. Get

YOU ARE ENTITLED TO KNOW THE FACTS!

20,000,000 motor vehicles now travel the American __highways.

50,000,000 Americans ride in these cars every day in the year.

Safety for this vast army of travelers is a national issue, and where safety is involved plain speaking is a public duty.

It is high time the public realized—as experts have long realized - that automobile bodies should be made of steel -not of wood or any other fragile material.

Indeed, it is one of the mysteries of this usually progressive industry that the all steel body is not already in universal use.

It will be before long. Public opinion will demand it—as it now demands that railway sleeping cars be all steel.

For even a child knows that steel is stronger than wood —that steel will not splinter or burn—and that all steel ... bodies will stand up under impacts that would crush ordinary bodies to bits.

That is why Dodge Brothers pioneered in introducing the the all steel body—pioneered again recently, in improving and perfecting it - pioneer, now, in urging its adoption by every automobile builder in the world.

The issue is plain—

Manufacturers must build safely if the automobile industry is to hold its present high place in public usefulness and esteem.

And the all steel body—as exemplified in Dodge Brothers Motor Car—is the greatest single advance in motoring safety made in the last fifteen

The car will continue to be a "four." No reasoning buyer will be distracted from the issue of QUALITY by mere CYLINDER propaganda.

HONEY

Is Good For the Kiddies

Give them honey at meal-time. It is also an excellent spread for their bread between regular meals. Children have a longing for sweets, and if given liberal amounts of honey it will lessen their desire for candies and other sweets that might prove harmful. Honey contains small proportions of various phosphates, lime, iron and other elements necessary for development,

When you buy honey tell your grocer that you want "NOLEN'S".
